

Appendix 6: Business Continuity Referral Process to EMMM

How to refer a patient to the East Midlands Maternal Medicine Network where the website is not available

Referrals can be made online via refer a patient. Type referapatient.org into Google Chrome or another browser.

Once the webpage has appeared, select option 1

Log In

1. Refer a patient or ask advice from a Specialist (new episode)

2. Send a clinical update or new imaging to the Specialist (QCKmsg)

3. I'm going off shift and need to handover a patient

4. I need to takeover a patient and get the latest advice

5. Something else

Or select 'new referral' along the top bar.

To select the hospital type East Midlands and select East Midlands Maternal Medicine Network

Then it will ask you :
And to which speciality or on which pathway would you like to send your referral?

Start typing Maternal Medicine Centre, scroll down and click on [click here to continue.](#)
Complete the form in as much detail as you can. You can upload documents with blood results and scans etc.

You receive a text message once it has been completed.

If you have any problems please email eastmidlandsmaternalmedicinenetwork@uhl-tr.nhs.uk for help or email the referral.
