Welcome to the first edition of the EMMMN newsletter!

The East Midlands Maternal Medicine Network (EMMMN) has responsibility for ensuring that all women in the region with significant medical conditions have access to timely specialist care around the time of pregnancy. We are happy to receive referrals from beyond the East Midlands, especially if women already receive specialist care at one of our hospitals.

Our Focus :

- ⇒ Identifying women at risk
- ⇒ Access to specialist care
- ⇒ Education and training
- ⇒ Improving services
- ⇒ Pre- pregnancy care
- ⇒ Post—partum care

Meet the New Staff!

Anette Freyer - Lead Obstetric Physician

After training in South Africa and the UK Anette has been working as an acute and obstetric physician. Anette is delighted to join the EMMMN to concentrate fully on Obstetric Medicine and is looking forward to put her experience in Safe Clinical Systems design to good use.

Hollie Taylor—MDT Coordinator and Data Navigator

Hollie has recently started within the EMMMN core team as the MDT Coordinator and Data Navigator having previously worked within the Patient Safety Team for Women's & Children's at the UHL.

News Letter 1

October 2023

EMMMN welcomes our Maternity and Neonatal Voices Partnership Representative

We are delighted that Natalie Whyte has agreed to join the board of the EMMMN as the Midlands MNVP. Natalie is passionate about midwifery and all aspects of the maternity services and also sits on the Nursing and Midwifery Council midwifery panel.

Natalie Whyte is the Service User Voice Representative for the Midlands, Natalie will be working within the EMMMN to ensure equity and equality as it corresponds to patient engagement.
